The Hollywood Boosters is the oldest business district organization in Portland. We are a not-for-profit group whose purpose is to bring together all merchants, business, and professional people of the Hollywood District. Together, we work to develop the district economically and socially, to create a community consciousness for the greatest possible growth. We use our resources to promote community advertising and to encourage co-operation and co-ordination for the advancement of business in the neighborhood.

**To become a Booster member, see Paul Clark in
42nd Street Station or call us at 503-281-8891.**
